

2nd International Conference on Sensors and Electronic Instrumental Advances

Barcelona, Castelldefels, Spain

22-23 September 2016

The 2nd International Conference on Sensors and Electronic Instrumental Advances (SEIA' 2016) is a forum for presentation, discussion, and exchange of information and latest research and development results in both theoretical and experimental research in sensors, transducers and their related fields. It brings together researchers, developers, and practitioners from diverse fields including international scientists and engineers from academia, research institutes, and companies to present and discuss the latest results in the field of sensors, measurements and automatic control.

The conference is focusing any significant breakthrough and innovation in Sensors, Electronics, Measuring Instrumentation and Transducers Engineering Advances and its applications with broadest concept including Internet of Things (IoT), wearable devices, smart homes and cities, healthcare, etc. by focusing on main areas as

- **Sensor Technology**
- **Instruments and Measuring Technology**
- **Automation and Control**

Submission (2-page abstract)
Notification of acceptance
Registration
Camera Ready

31 May 2016
12 June 2016
25 June 2016
12 September 2016

Contribution Types:

Regular papers
Posters

One event - three publications !

1. All registered abstracts will be published in the conference proceedings.
2. Selected extended papers will be published in *Sensors & Transducers Journal*.
3. The best full-page papers will be recommended to extend to book chapters (book Series on *Advances in Sensors: Reviews*).
