

The 1st International Conference
on Advances in Sensors, Actuators, Metering and Sensing

ALLSENSORS' 2016

24-28 April, 2016

Venice, Italy

Call for Papers

The ALLSENSORS 2016 is an inaugural event covering related topics on theory practice and applications of sensor devices, techniques, data acquisition and processing, and on wired and wireless sensors and sensor networks.

The conference is intended to serve as a forum for researchers from the academia and the industry, professionals, standard developers, policy makers, investors and practitioners to present their recent results, to exchange ideas, and to establish new partnerships and collaborations.

The topics suggested by the conference can be discussed in term of concepts, state of the art, research, standards, implementations, running experiments, applications, and industrial case studies. Authors are invited to submit complete unpublished papers, which are not under review in any other conference or journal in the following, but not limited to, topic areas:

- * Sensors types
- * Quantum sensors and measurements
- * Cryogenic sensors and systems
- * Biosensors and bio-oriented electronics
- * Sensor technologies and materials
- * Aerospace sensors and sensor systems
- * Sensor-related techniques and methods
- * Transducers, actuators
- * Metering/Measurements
- * Sensing systems
- * Sensor-system algorithms, protocols, communication and computation

Advisory Chairs

Radislav A. Potyrailo,
GE Global Research Center, USA

Sergey Yurish,
Excelera, S. L., IFSA, Spain

Important deadlines:

Submission (full paper):

27 December 2015

Notification:

15 February 2016

Registration:

1 March 2016

Camera ready:

16 March 2016
