Research Articles

Shock Resistance of MEMS Capacitive Accelerometers <i>Yongkang Tao, Yunfeng Liu, and Jingxin Dong</i>	1
Research on Nonlinear Vibration in Micro-machined Resonant Accelerometer <i>Shuming Zhao, Yunfeng Liu, Fan Wang, Jingxin Dong</i>	14
Reversible and Irreversible Temperature-induced Changes in Exchange-biased Planar Hall Effect Bridge (PHEB) Magnetic Field Sensors <i>G. Rizzi, N. C. Lundtoft, F. W. Østerberg, M. F. Hansen</i>	22
Synthesis and Characterization of Nickel Ferrite (NiFe₂O₄) Nanoparticles with Silver Addition for H₂S Gas Detection <i>N. Domínguez-Ruiz, P. E. García-Casilla, J. F. Hernández-Paz, R. C. Ambrosio-Lázaro, M. Ramos-Murillo, H. Camacho-Montes, C. A. Rodríguez González</i>	35
Electron-Relay Supercapacitor Mimics Electrophorus Electricus's Reversible Membrane Potential for a High Rate Discharge Pulse <i>Ellen T. Chen and Christelle Ngatchou</i>	42
Ultralow Detection of Bio-markers Using Gold Nanoshells <i>Dhruvinkumar Patel, Xinghua Sun, Guandong Zhang, Robert S. Keynton, Andre M. Gobin</i>	49
Evaluation of Anchoring Materials for Ultra-Sensitive Biosensors Modified with Au Nanoparticles and Enzymes <i>Solomon W. Leung, David Assan and James C. K. Lai</i>	59

Authors are encouraged to submit article in MS Word (doc) and Acrobat (pdf) formats by e-mail: editor@sensorsportal.com
Please visit journal's webpage with preparation instructions: <http://www.sensorsportal.com/HTML/DIGEST/Submission.htm>

International Frequency Sensor Association Publishing Call for Books Proposals

Sensors, MEMS, Measuring instrumentation, etc.

Benefits and rewards of being an IFSA author:

1

Royalties

Today IFSA offers most high royalty in the world: you will receive 50 % of each book sold in comparison with 8-11 % from other publishers, and get payment on monthly basis compared with other publishers' yearly basis.

2

Quick Publication

IFSA recognizes the value to our customers of timely information, so we produce your book quickly: 2 months publishing schedule compared with other publishers' 5-18-month schedule.

3

The Best Targeted Marketing and Promotion

As a leading online publisher in sensors related fields, IFSA and its Sensors Web Portal has a great expertise and experience to market and promote your book worldwide. An extensive marketing plan will be developed for each new book, including intensive promotions in IFSA's media: journal, magazine, newsletter and online bookstore at Sensors Web Portal.

4

Published Format: printable pdf (Acrobat).

When you publish with IFSA your book will never go out of print and can be delivered to customers in a few minutes.

You are invited kindly to share in the benefits of being an IFSA author and to submit your book proposal or/and a sample chapter for review by e-mail to editor@sensorsportal.com. These proposals may include technical references, application engineering handbooks, monographs, guides and textbooks. Also edited survey books, state-of-the-art or state-of-the-technology, are of interest to us. For more detail please visit: http://www.sensorsportal.com/HTML/IFSA_Publishing.htm

NEW BOOK

Formats: printable pdf (Acrobat) and print (hardcover), 120 pages

ISBN: 978-84-615-9732-1,
e-ISBN: 978-84-615-9512-9

Jacob Y. Wong, Roy L. Anderson

Non-Dispersive Infrared Gas Measurement

Written by experts in the field, the *Non-Dispersive Infrared Gas Measurement* begins with a brief survey of various gas measurement techniques and continues with fundamental aspects and cutting-edge progress in NDIR gas sensors in their historical development.

- It addresses various fields, including:
- Interactive and non-interactive gas sensors
- Non-dispersive infrared gas sensors' components
- Single- and Double beam designs
- Historical background and today's of NDIR gas measurements

Providing sufficient background information and details, the book *Non-Dispersive Infrared Gas Measurement* is an excellent resource for advanced level undergraduate and graduate students as well as researchers, instrumentation engineers, applied physicists, chemists, material scientists in gas, chemical, biological, and medical sensors to have a comprehensive understanding of the development of non-dispersive infrared gas sensors and the trends for the future investigation.
